Ken G. Mensing, Regional Manager  
Field Operation Section  
Division of Land Pollution  
2009 Mall Street  
Collinsville, IL 62234

Dear Mr. Mensing:

This office is currently conducting an inspection at the Village of Sauget Physical Chemical Wastewater Treatment Plant. This inspection relates to both the Treatment Plant and a contractor performing work on the surge lagoon which is being lined with concrete and extended upward to hold more water.

I request you send me a copy of the file on the lagoon project at the Treatment Plant. Primarily we are interested in the analytical results but after the file in your office was reviewed on August 15, 1991, it is evident that most or all of the materials would be valuable in our inspection.

Thank you for your cooperation and if you have any questions concerning this matter, please contact this office at 618/277-5300.

Sincerely,

*Richard W. Taylor*
